

The Golf Community of Murcia

Players can print and use this handy guide to check any approximate yardage or distance marked on the Golf course.

Most Murcia Golf courses have distance markers at 100, 150 and 200 metres; others have various distances marked on Water Sprinklers.

Simply, read off the numbers and add them together to find the yardage.

For example; 120 metres is (100m + 20m) 109.4 + 21.9 = 131.3 yards

Or 131 Yards is (100 + 30 + 1) 91.4m + 27.4m + 0.9m = 119.7 metres
